

## TENDANCES and TENDANCES +

### Technical specifications

Glass thickness	3mm to 19 mm	
Application	For interior glazing, <b>TENDANCES</b> is only offered in full coverage applications. May be applied over Cerafrut our Ceraprint for full opacity. For partial coverage or for applications requiring a pattern, we recommend to opt for CERAFRIT.	
Fabrication	Standard fabrication is seamed edges, polished edgework is subject to availability, please verify with estimating	
Adhesives	We recommend the following adhesives which have all been tested :	
	<b>Tendances</b>	<b>Tendances +</b>
	<ul style="list-style-type: none"> <li>• Dow Corning 1199</li> <li>• Dow Corning 795</li> <li>• Palmers’s Mirror Mastic</li> <li>• GE SilPuf SCS2000</li> <li>• CRL tv Silicone Sealant</li> <li>• Pecora Mirror Mastic</li> <li>• CRL 33s</li> </ul>	<ul style="list-style-type: none"> <li>• Dow Corning 795</li> <li>• Dow Corning 995</li> <li>• Dow Corning 983</li> <li>• Dow Corning 121</li> <li>• GE SCS 1200</li> <li>• GE SCS2000</li> <li>• GE SCS4600</li> </ul>
Durability	Meets ASTM d3359 (adhesion).	

Warranty	<b>TENDANCES</b> has a 5 year warranty against any deterioration, chipping, color change if installed in accordance with Laurier glass recommendations.
Color Variation	<p>Laurier has rigorous quality control procedures and ensures a thorough product quality control.</p> <p>For manufacturing opacifying products, we use high quality pigments from reputable suppliers. We also use reference samples to check finished products. Despite these rigorous procedures, slight color variations may be noticeable between different productions of the same product.</p>
