With 6mm tempered or laminated glass and sleek stainless steel brackets, the display is tough and stable yet easy to move when needed. Unlike acrylic, glass will not whiten over time and will maintain its transparency with little effort on your part.

- Sizes compatible with most furniture
- Elegance of glass — better transparency than acrylic sheets
- Easy to clean and resistant to cleaning products
- Scratch resistant
- Will not whiten over time
- Strong and stable base
- Quick setup
- recyclable materials — an ecologically friendly choice
